

Feb 8 email report [names z'd or x'd out] of Dean Kurt Torell photographing Fagal's door. I was also later told that Sr. Margaret Gannon also photographed the Fagal Door on the same day.

Subject: Fagal update

Hello zzzzzzzzzz,

Just to give you a heads up, Dean Kurt Torell was observed yesterday taking pictures of the various items hanging on my office door. I haven't put anything new up there recently.

I took pictures of my door today just for fun.

But something is probably in the works. The last contact with Gannon or Torell was in the beginning of last semester (I updated you guys at FIRE). At that point they left it at "We will let you know what we will do from here" [words to that effect].

Perhaps the anti-free speechers are feeling their oats with the presidential choices boiling down to Clinton or Obama or McCain...

xxxxxxxx xxxxxxxx(with some input from me) designed a quick survey (see attached spreadsheet). We printed the survey copies privately. Three or four surveying [sic] students randomly approached other students and gave out the survey and collected it on the spot (the questions are on the attached spreadsheet). Through the Facebook free speech group an online survey was done (reported separately on the spreadsheet).

The kicker question pertains to the mere possibility of students handing out flyers to prospective students. The administration would love that to happen (NOT).

[omitted lines which identified the recipient]
