Dear Fred,

I spoke to the senior administration, and shared your request that they consider your original proposal for resolution of the student complaint, namely the one contained within the italicized insert in the copy of the original summary, dated April 8.

In response, the senior administration directed me to inform you that you have until Monday, April 14, 5 p.m., to willingly remove from your office door the materials described in the student complaint in order to informally resolve this complaint in a manner that is acceptable to both parties (complainant and alleged offender.)

Included in this offer of an informal resolution is the expectation, based on the institution's core values, that there will be no similar postings in the future.

Please let me know if you have any questions.

+++++

Dr. Kurt Torell, Dean
